

# WCC2200-T

Striker Upgrade package with remote control and remote access.

WCC2200-T allows you to have complete control of your bell ringing options.

Remote Control with Receiver

Bell and Clock Controller

If you feel your bell is too dangerous to swing due to aging bell equipment, or you would like more options without replacing all your current equipment, we have a solution. The WCC2200-T restores your ability to once again ring your bell by installing a striker upgrade kit.

With the WCC2200-T, you can upgrade to a new bell controller system with 7inch touch screen, automatic daylight savings time, hour strike, Angelus, call to worship and funeral toll.

Bell Striker

Call today for a free evaluation for your WCC2200-T upgrade kit and restore the joy of ringing your bell once again.
